## **Section 1 – Introduction**

This directory provides a list of CCA Medicare Maximum network providers.

You will have to choose one of our network providers listed in this directory to be your **Prietary Care Provider (PCP)**. Generally, you must get your healthcare services from your PCP.

CCA Medicare Maximum members are required to have a PCP from our network. The PCP that you select may be a licensed primary care physician, a nurse practitioner, a physician assistant, or a women's health specialist. During the enrollment process, we will work with you to select a PCP. Our plan contracts with PCPs who know your community and who have developed working relationships with specialists, hospitals, community-based providers, and skilled nursing facilities.

Your PCP is responsible for coordinating all your medical care. "Coordinating" your services includes checking with you and your providers about your care and how it is going. Prior authorization (approval in advance) is required for certain services. Your PCP arranges for these services when needed.

The network providers listed in this directory have agreed to provide you with your healthcare, vision, and dental services. You may go to any of our network providers listed in this directory. Other providers are available in our network. Referrals are not required.

Out-of-network providers are under no obligation to treat CCA Medicare Maximum enrollees, except in emergencies. For a decision about whether we will cover an out-of-network service, we encourage you or your provider to ask us for a pre-service organization determination before you receive the service. Please call Member Services at 855-959-5855 (TTY 711), 8 am to 8 pm, 7 days a week, from October 1 to March 31. (April 1 to September 30: 8 am to 8 pm, Monday to Friday.). You may also refer to your Evidence of Coverage (EOC) for more information, including the cost sharing that applies to out-of-network services.

Our plan will cover services from either network or out-of-network providers, as long as the services are covered benefits and are medically necessary. When you receive care from a provider who is not part of our network, you are only responsible for paying your share of the cost, not for the entire cost. However, if you use an out-of-network provider, your share of the costs for your covered services may be higher. It is best to ask an out-of-network provider to bill us first. But, if you have already paid for the covered services, we will reimburse you for our share of the cost for covered services. Or if an out-of-network provider sends you a bill that you think we should pay, you can send it to us for payment.

Our plan covers worldwide emergency care, urgently needed services, and emergency transportation. When you are outside the service area and cannot get care from a network provider, our plan will cover urgently needed services that you get from any provider at the lower in-network cost-sharing amount.
